As an employer operating within the within the Business, Administration, Finance and Law sectors, we confirm our support for the four Association of Accounting Technicians (AAT) qualifications listed in the table below that will be submitted to Ofqual for accreditation during 2015. We have reviewed the qualifications and we confirm that these qualifications, in our opinion, meet the skills needs of the industry.

The NOS are developed in collaboration with employers and professional bodies such as ourselves, so as to ensure the content remains current, applicable and transferable.

We are happy for our support of these qualifications to be published on AAT's website so that learners can see for themselves which qualifications are recognised by industry as fit for purpose.

Yours sincerely
